Fruits Of Tropical And Subtropical
Mediterranean and Sub-Tropical Fruits Subtropical fruits need warm or mild temperatures throughout the year, but they can survive in a light frost. The most common subtropical fruits are citrus fruits: oranges, grapefruits, lemons, and limes. Oranges, the leading citrus fruit, are grown from southern Japan.

List of Fruits | Tropical and Subtropical Fruits | Fruit ... Tropical and subtropical fruits include not only woody plants, such as the mango or the orange, but
also herbaceous crops like the banana and vines like the passion fruit. Most botanical families can lay claim to at least one species of tropical or subtropical fruit. Franklin Martin and colleagues (1987) list some 137 families, and the best known are in Box 2.
